Hairaura Campaign Performance Report

Section 1 — Campaign Overview

This report covers the digital marketing campaign conducted for Hairaura, a natural hair oil brand. The campaign ran over 3 weeks on Instagram, focusing on brand awareness, audience engagement, and content promotion.

Section 2 — Target Audience:

- Age (15 to 40+)
- Gender (Male and Female)
- Demographics (All over Pakistan)
- Hair concerns (Hair concerns: Hair fall, dry & damaged hair, slow hair growth, dandruff, frizzy hair)

Section 3 — Competitors Researched

Saeed Ghani, Alif Ahlam, Halalveda. These brands post daily, focusing on key benefits, ingredients, and usage tips. Hashtags used: #HairOils #NaturalHairCare #HealthyHair, etc.

Section 4 — Campaign Goals (SMART):

- Gain 100 new Instagram followers in 3 weeks
- Achieve 500 impressions per post
- *Increase brand awareness:* impressions up 25% on Instagram in 3 weeks.
- 5% engagement rate on posts
- Generate at least 20 DM inquiries about ordering Hairaura in 3 weeks.

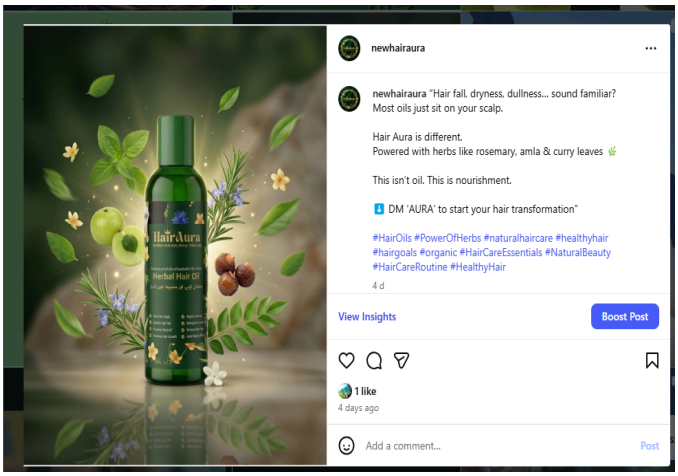
Section 5 — KPIs

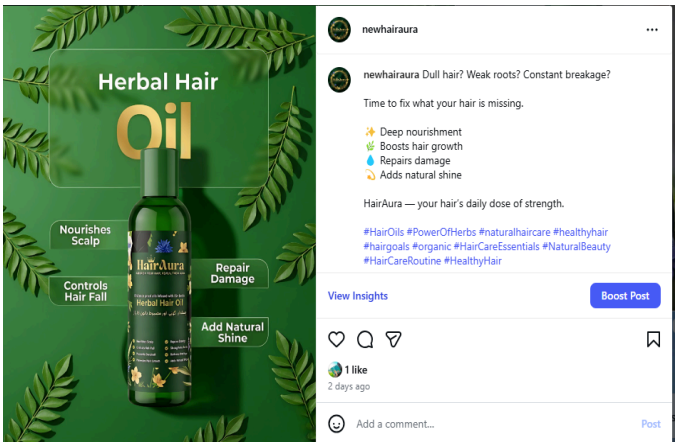
Reach, Likes, Comments, Shares, Profile Visits, Link Clicks

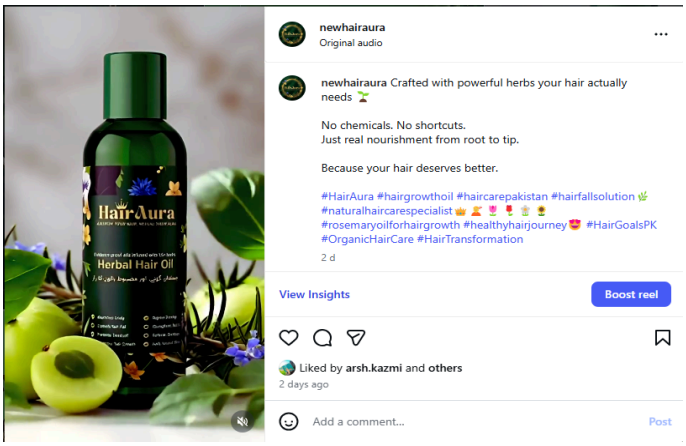
Post	Topic	Reach	Impressions	Likes	Comments	Shares
Post 1	Brand Intro	280	420	1	0	0
Post 2	Viral Post	250	370	1	0	0
Post 3	Ingredients	410	590	1	0	0
Post 4	Testimonial	290	400	3	0	0
Post 5	Solution	490	680	4	1	0

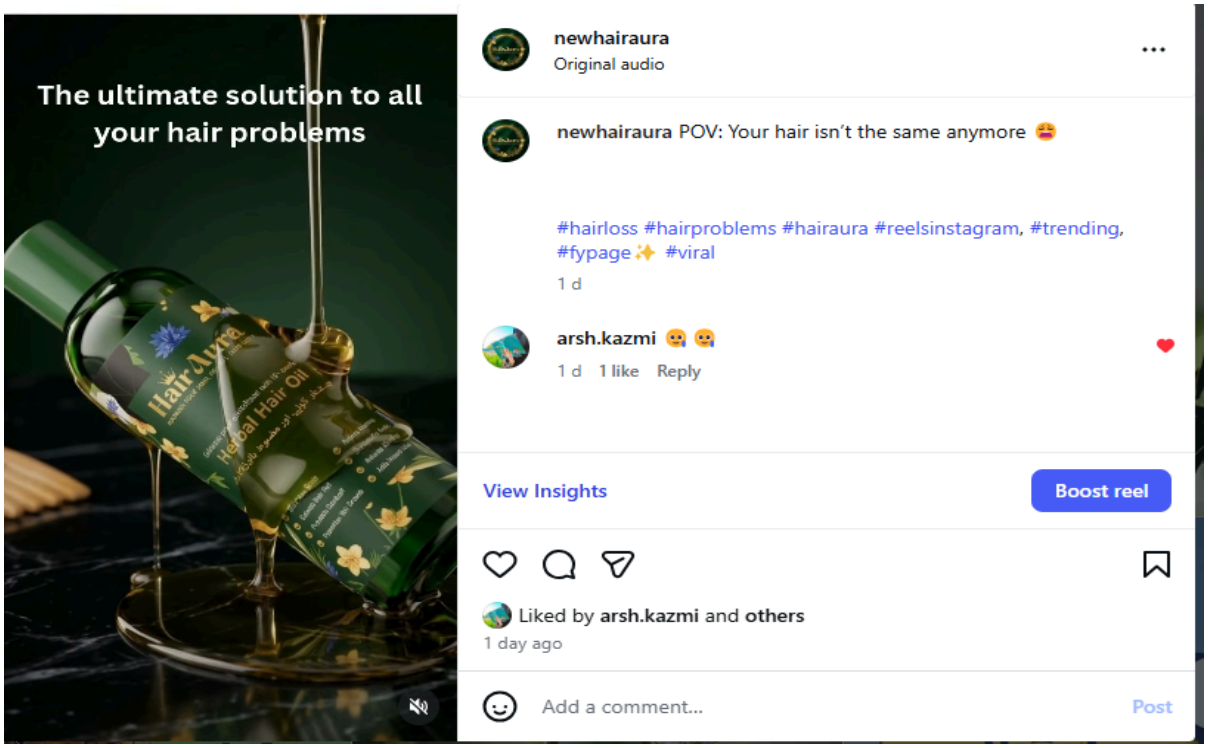
Section 6 — Content Created

5 social media posts were created using Canva, covering: brand introduction, key ingredients, hair care tips, customer testimonial, and a promotional offer. 2 ad creatives were also designed for a planned Instagram ad campaign.



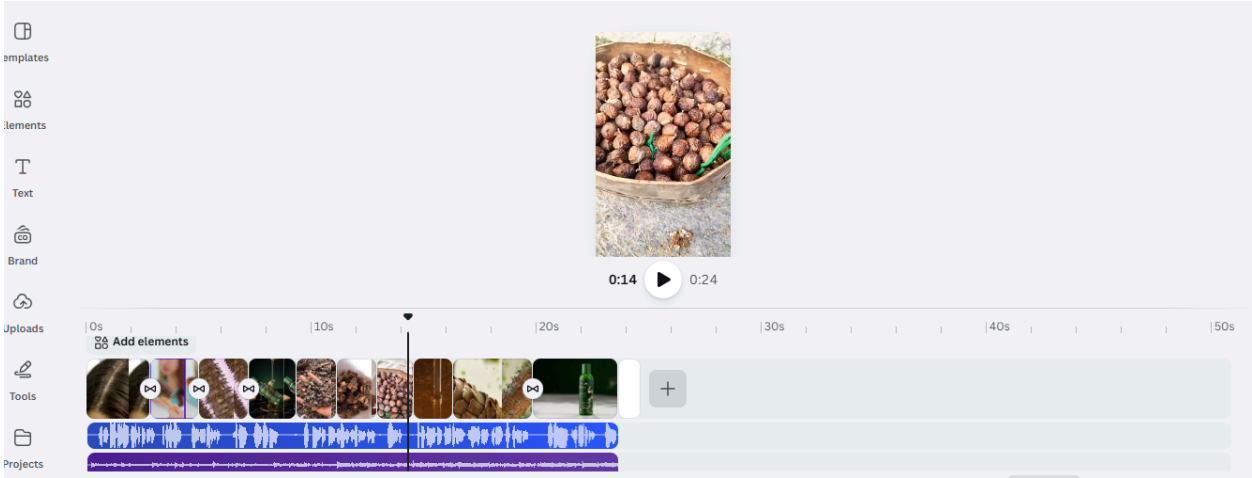






Section 7 — Ad Campaign Note

An Instagram ad campaign was designed targeting ages 15–40 across Pakistan. Due to a technical issue with Meta Business Suite, the live ad was not launched. Two ad creatives were prepared for this purpose and are attached below.



Section 8 — Performance Analysis:

Best Performing Post: Post 5 (video) with the highest reach and engagement.
Why it performed well: The visuals were attractive.

Lowest Performing Post: Post 1 (Introduction) — educational content gets lower engagement unless paired with a strong visual.

Section 9 — A/B Test Analysis

Two ad creatives were designed with different headlines:

- Ad A: Video: *"Natural Ingredients. Real Results. Hairaura Hair Oil"* — benefit-focused
- Ad B:Picture: *"Herbal Hair Oil. It was also about benefits"*

Ad A is predicted to perform better because it directly addresses a pain point (dandruff and hair fall), which is more emotionally engaging for the target audience.

Section 10 — Lessons Learned

- Hair tip videos get higher engagement than promotional posts in organic reach.
- Consistency in posting (daily/every 2 days) is key to building an audience
- Visually strong creatives are more important than long captions.

Section 11 — Recommendations

- Add Instagram Reels — they get 3x more reach than image posts
- Use Instagram Stories with polls to increase interaction
- Collaborate with micro-influencers in Pakistan for a wider reach
- Run paid ads once the Business Suite issue is resolved.
